

TRAFFIC CALMING ON N 143RD ST

Where: Bitter Lake Community Center, 13035 Linden Ave N, Seattle WA 98133

Date: Thursday January 21, 2016

Time: 7 – 8 PM

Guest Speaker: Shauna Walgren, with Seattle Department of Transportation (SDOT)

Sponsors: Bitter Lake Community Center Advisory Council and Broadview Community Council

At the Mayor's Find it Fix it Tour on November 14, 2015 the community expressed strong concerns with traffic on N 143rd St. Seattle Department of Transportation (SDOT) confirmed this corridor is used as a cut-through route from Aurora to Greenwood. People driving should use N 145th St, one block to the north.

At the meeting on January 21, we will provide traffic data to the community and discuss potential improvements. If the community chooses to pursue improvements, the best funding source is the Neighborhood Park and Street Fund. Project applications are due February 8. Find the application and learn more at www.seattle.gov/neighborhoods/neighborhood-park-and-street-fund.
