

Minivan flipped here in September 2016

HELP MAKE 1ST AVE NW/N 137 ST INTERSECTION SAFER: 10 ACCIDENTS SINCE 2005*

*SDOT Collision data. Includes several injury accidents

Outdated + dangerous intersection unsafe for growing neighborhood

1st Ave NW looking north

N 137th St looking west

N 137th St looking east

Looking at these images toward the intersection, one can see that visibility to adjacent streets is very limited due to mature vegetation and fencing.

- Narrow sightlines and overgrown vegetation makes visibility poor.
- 1st ave NW only uninterrupted north/south route between 132nd/143. Heavily used by children and families walking to Broadview Thomson School/Churches/Library and a favorite for bicyclists.
- 137th connects from 8th Ave NW to Aurora – cars routinely cut through here and cannot see 1st Ave NW until on 1st Ave NW, which is too late.
- Seattle has a streets/parks improvement fund that is taking applications (<http://www.seattle.gov/neighborhoods/programs-and-services/your-voice-your-choice/get-involved>).
- Applying for an engineered safety solution to make the intersection safer.
- Community support was **critical** to previous projects getting funded/done. **Please contact me by January 26th** if you'd like to help!

Keep our
neighborhood
streets safe for our
kids and families
